

## REMARKS

## 1. Preliminary Matters

**a. Status of the Claims**

Claims 17-22 are pending and allowed in this application.

**b. Amendments to the Specification**

The specification is amended to incorporate by reference the substitute sequence listing submitted herewith.

**c. Computer Readable Form**

The Examiner in the Official Action alleges that the Computer Readable Form of the Sequence Listing (“CRF”) filed on June 26, 2008 is defective. The CRF Problem Report attached to the Official Action specifies that information associated with fields <120> and <130> is incorrect, and that mandatory fields <140> and <141> are missing. Applicant submits herewith a substitute Sequence Listing under 37 C.F.R. § 1.825(b) and a substitute CRF in which (1) the title is listed in field <120>; (2) the file reference number in field <130> is accurate; (3) field <140> is shown with the instant application number; and (4) field <141> is shown with the instant filing date. The Sequence Listing and CRF also list the first inventor in field <110>, as well as the parent international and priority provisional applications and their respective filing dates in fields <150> and <151>. Applicant submits that the substitute Sequence Listing and CRF comply with the requirements of 37 C.F.R. §§ 1.821-1.825.
